Seite 1 von 1

1. Requirements to be met according to the study and examination regulations

- At least 65 CP have been earned, including:
 - One module from Electives Area Ia – Fundamentals,
 - One module from Electives Area Ib – Digitalisation,
 - Max. 12 CP from courses offered by a single Professor in Electives Area II,
 - 2 ADPs or 1 ADP and an external project work
 - At least one ADP must be in the subject area of Aerospace Engineering
 - Tutorial.
- The Thesis must be written in a department of the faculty of Mechanical Engineering. The Thesis-examiner may only have examined one of the two ADPs.

If the requirements mentioned above are not met, you must submit an informal request to the Dean of Studies.

2. Informal application for early start of the Master Thesis

- The following information must be included in the informal application:
 - Data:**
 - Last name, first name; matriculation number; e-mail address, and telephone number
 - Justification:**
 - What is the current study situation (overview of missing subjects/CPs)?
 - When are the missing credits to be acquired?
 - Why is the early start desired?
 - In which subject area is the Thesis to be written?
 - If applicable, open conditional requirements

The professor must approve the request with her/his signature.

Please send your signed document as a PDF to pruefungsmanagement@mechcenter.tu-darmstadt.de

- Wait for confirmation (approval) by e-mail. Then the Thesis can be registered.

3. Registration after approval of early start of the Master Thesis

- Please send an e-mail to pruefungsmanagement@mechcenter.tu-darmstadt.de as soon as you receive a signed assignment from the professor. Attach the signed assignment document to the e-mail so that the thesis registration can be done for you in TUCaN.
You are not allowed to start working on your Thesis until you have registered!
- The Thesis must be **within the subject area of Aerospace Engineering** and must be **written in English**. Both must be **noted on the assignment**.
- The assignment must contain the **title in German and English**.
- After the work has been registered by the examination management, the completion time of a maximum of 24 weeks (900h of student work) runs.

Important for the Master's degree

Attention! Please note that green check marks appear on the web transcript of records generated in TUCaN in some areas before you have fulfilled the requirements according to your **examination regulations**. These check marks are the result of the technical regulations and should not be taken as confirmation that the individual requirements have been met in accordance with the **study and examination plan**. Please use the study and examination plan to check whether you have earned the necessary CP in all areas.
